DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II and SEQ ID NO:14 in the reply filed on 6/15/2006 is acknowledged. The traversal is on the ground(s) that there is no significant search burden. This is not found persuasive because searching nucleic acid, peptide and antibody sequences requires separate databases and search queries. The requirement is still deemed proper and is therefore made FINAL. Applicant cancelled claims 1-12 and 14-20. Claim 13, amended to include only SEQ ID NO:14 and no other species, is pending.

Priority

2. It is noted that this application appears to claim subject matter disclosed in prior Application No. 60/391,806, filed 06/27/2002. A reference to the prior application must be inserted as the first sentence(s) of the specification of this application or in an application data sheet (37 CFR 1.76), if applicant intends to rely on the filing date of the prior application under 35 U.S.C. 119(e), 120, 121, or 365(c). See 37 CFR 1.78(a). If the application is a utility or plant application filed under 35 U.S.C. 111(a) on or after November 29, 2000, the specific reference to the prior application must be submitted during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e), where applicable, within this time period is considered a waiver of any benefit of such prior application(s) under 35 U.S.C. 119(e). A benefit claim filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed benefit claim under 35 U.S.C. 119(e). The petition must be

Art Unit: 1654

accompanied by (1) the reference required by 35 U.S.C. 119(e) and 37 CFR 1.78(a)(2) or (a)(5) to the prior application (unless previously submitted), (2) a surcharge under 37 CFR 1.17(t), and (3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional. The petition should be addressed to: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

3. If the reference to the prior application was previously submitted within the time period set forth in 37 CFR 1.78(a), but not in the first sentence(s) of the specification or an application data sheet (ADS) as required by 37 CFR 1.78(a) (e.g., if the reference was submitted in an oath or declaration or the application transmittal letter), and the information concerning the benefit claim was recognized by the Office as shown by its inclusion on the first filing receipt, the petition under 37 CFR 1.78(a) and the surcharge under 37 CFR 1.17(t) are not required. Applicant is still required to submit the reference in compliance with 37 CFR 1.78(a) by filing an amendment to the first sentence(s) of the specification or an ADS. See MPEP § 201.11.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 1654

5. Claim 13 is rejected under 35 U.S.C. 102(e) as being anticipated by St. Croix *et al.* (US 20030017157 A1). St. Croix *et al.* teach a peptide comprising all of the contiguous amino acids of SEQ ID NO: 14 (see SEQ ID NO: 267 of US 20030017157 A1). Amino acids 1-141 of SEQ ID NO: 267 taught by St. Croix *et al.* are identical to SEQ ID NO: 14. The claim language “comprising” allows for additional amino acids flanking the claimed sequence.
